The evaluation of the subject will be carried out by carrying out two written exams (each one explains 30% of the final grade), as well as by carrying out and presenting the analysis work of a hotel company (25%) and by the discussion of practical cases throughout the course (15%). A sine qua non condition to obtain accreditation

for the subject: it will be necessary to have passed (with a grade greater than or equal to 5) both the exams and the analysis work.

Single evaluation

If you do not follow the continuous evaluation or suspend it on the official dates established, a single evaluation may be carried out. This evaluation will be performed by a written exam with two parts (each one explains 30% of the final mark), as well as by carrying out and presenting an analysis of a hotel company (40%).

Re-evaluation.

It is aimed at students who have obtained a grade equal to or greater than 3.5 and less than 5 in the single evaluation. The qualification of this re-evaluation will not exceed 5 as the final grade. The modality of the reassessment exam will be defined by the professors of the subject.

The re-evaluation exam for the students who have opted for a single evaluation will be the same as that of the rest of the students and to take the re-evaluation. It will be necessary that they have obtained at least a 3.5 in the set of evidences of which record the single evaluation.

The grade for the subject will be NOT EVALUABLE when the student attends less than half of the assessment activities and/or does not attend the final exam.
