Prerequisites

Prerequisites: A good English reading comprehension is necessary to follow the course.

Objectives and Contextualisation

This is an optional Geography course. The field of study is global, although reference will also be made to local o
The aim is to provide elements of reflection and analysis that help to und
-The acquisition of the basic knowledge necessary to understand the cha
-The consolidation of basic concepts of social geography learned in the c
-The training to interrelate concepts and problems of the different thema
-The ability to use the tools and content learned in other subjects of the c

Competences

- Formulate, argue and discuss your own and others' ideas in a respectful, critical and reasoned way.
- Incorporate the non-androcentric perspective in the work carried out.
- Interpret and explain the history of gender relations, the significance of differences and the processes of generating inequalities in a context of globalization.
- Interpret gender inequalities in relation to sexuality, class, ethnicity and territory based on the concepts and approaches of sociocultural analysis.
- Students must be capable of communicating information, ideas, problems and solutions to both specialised and non-specialised audiences.
- Students must have and understand knowledge of an area of study built on the basis of general secondary education, and while it relies on some advanced textbooks it also includes some aspects coming from the forefront of its field of study.

Learning Outcomes

1. Distinguish the gender relations found in the processes of social exchange in the territory.
2. Interpret the events of the current world based on gender, class, social and cultural diversity.
3. Manage the main indicators of geography to analyze the gender structure of society.
4. Prepare an organized and correct speech, orally and in writing, in the corresponding language.
5. Students must be capable of communicating information, ideas, problems and solutions to both specialised and non-specialised audiences.
6. Students must have and understand knowledge of an area of study built on the basis of general secondary education, and while it relies on some advanced textbooks it also includes some aspects coming from the forefront of its field of study.
7. Use the specific technical vocabulary and own interpretation of the required disciplines.

Content

Course contents are divided into six thematic units, preceded by an introduction.

0. Introduction and objectives of the subject. Questions and expectations.

1. The concept and scales of globalization

2. Economic and geographical restructuring of capitalism

3. Population and gender movements

4. Geopolitics and the international gender agenda

5. Ecofeminism and political ecology

6. Inequalities and (de) colonial feminism
