Assessment

The evaluation is continuous. Students must demonstrate their progress by completing activities and exams. The deadlines for these evaluation activities will be indicated in the calendar on the first day of class. All activities will have a deadline that must be strictly adhered to, according to the subject calendar. On carrying out each evaluation activity, lecturers will inform students (on Moodle) of the procedures to be followed for reviewing all grades awarded, and the date on which such a review will take place. It is necessary to have obtained a minimum of 3.5 in each of the assessment tests in order to obtain a weighted average and make up for the failed tests. The weighting of the different evaluation elements will be as follows:

- Mid-term theoretical exam (25%)
- Final theoretical exam (25%)
- Research paper (30%)
- Written commentaries (20%)

Single assesement

Single assessment assumes a single assessment date but not a single assessment activity. The students who take advantage of the single evaluation must carry out the following tasks:

- Theoretical exam of the contents of the whole subject (50%)
- Research work (30%)
- Written comment (20%)

Students can apply for the Single Evaluation through a form between September 18 and October 6. The students can continue to attend class even if they adhere to the single assessment.

Related matters

The information about the evaluation, the type of evaluation activity and its weight on the subject is for information purposes only. The faculty responsible for the course will specify it at the beginning of the course.

Assessment activities review

When publishing final marks, the professor will provide written notification of a date and time for reviewing assessment activities. Students must arrange reviews in agreement with the professor.

Retake

Those students who have submitted activities whose weight is equivalent to two thirds or more of the final grade and who have obtained a weighted grade of 3.5 or more will have access to the recovery. Students will obtain a 'Not assessed/Not submitted' course grade unless they have submitted more than 30% of the assessment items.

At the time of giving the final grade prior to the final grade of the course, the teacher will communicate in writing the recovery procedure.

Consideration of "not assessed"

Students will obtain a 'Not assessed/Not submitted' course grade unless they have submitted more than 30% of the assessment items.

Irregularities in the evaluation activities

In the event of a student committing any irregularity that may lead to a significant variation in the grade awarded to an assessment activity, the student will be given a zero for this activity, regardless of any disciplinary process that may take place. In the event of several irregularities in assessment activities of the same subject, the student will be given a zero as the final grade for this subject.

In case of irregularity (plagiarism, copying, impersonation, etc.) in an evaluation activity, the grade of this evaluation activity will be 0. In case of irregularities in several evaluation activities, the final grade of the course will be 0.

Evaluation activities in which irregularities have occurred (such as plagiarism, copying, impersonation) are excluded from the recovery. It is considered as 'copy' a work that reproduces all or most of the work of another student, and as "plagiarism" the fact of presenting part or all of an author's text as one's own, that is, without

citing the sources, whether published on paper or in digital form. In the case of copying between two students, if it is not possible to know who has copied whom, the sanction will be applied to both.
