The subject will be evaluated in the following way:

Continuous Assessment 35%

- 4 tests

There will be a test over each book unit once it is finished and tests will be announced one week in advance.

- 2 writing assignments done in class

- 2 writing assignments done at home

Presentation 10%

Final Exam 45%

Class Participation 10%

- Express oneself in English using correct vocabulary and grammar.

- Complete the assigned spoken and written activities.

On carrying out each assessment activity, lecturers will inform students (on Moodle) of the procedures to be followed for reviewing all grades awarded, and the date on which such a review will take place.

This subject does not incorporate the single-assessment option.

Re-assessment:

Re-assessment for this subject requires a content-synthesis test, for which the following conditions are applicable:

- The student must previously have submitted a minimum of two-thirds of the course-assessment items.
- The student must previously have obtained an average overall grade equal to or higher than 3.5.
- The maximum grade than can be obtained through re-assessment is a 5.

Students will obtain a Not assessed/Not submitted course grade unless they have submitted more than 30% of the assessment items.

In the event of a student committing any irregularity that may lead to a significant variation in the grade awarded to an assessment activity, the student will be given a zero for this activity, regardless of any disciplinary process that may take place. In the event of several irregularities in assessment activities of the same subject, the student will be given a zero as the final grade for this subject.

Irregularities refer, for instance, to copying in an exam, copying from sources without indicating authorship, or a misuse of AI such as presenting work as original that has been generated by an AI tool or programme. These evaluation activities will not be re-assessed.

This subject entirely prohibits the use of AI technologies in all of its activities. Any submitted work that contains content generated using AI will be considered academic dishonesty; the corresponding grade will be awarded a zero, without the possibility of reassessment. In cases of greater infringement, more serious action may be taken.

Erasmus students who ask to advance test or exam dates need to present a document emitted from their university of origin justifying their request. Otherwise they need to do tests and the exam on the established dates.
