2. Oral presentations by students.
3. Questionnaire type written tests.
4. Book reviews.
5. Tutorials to supervise the students' autonomous activities.

Annotation: Within the schedule set by the centre or degree programme, 15 minutes of one class will be reserved for students to evaluate their lecturers and their courses or modules through questionnaires.

## Assessment

### Continuous Assessment Activities

Title	Weighting	Hours	ECTS	Learning Outcomes
Exams (35% + 35%)	70%	0	0	9, 5, 4, 6, 10, 8, 1, 2, 7, 11
Oral	10%	0	0	9, 5, 4, 6, 3, 10, 8, 1, 2, 7, 11
Readings, library and periodicals library work, critical reflection	20%	0	0	9, 10, 1, 2, 7

The evaluation will be carried out on the basis of the following procedures and criteria:

1. A written test type questionnaire: 35 %.
2. A written test type questionnaire: 35 %.
3. A review of a book to choose between three possible: 20%.
4. A short exposition (on a text, character or specific event) with the delivery of a written outline: 10%.

The re evaluation will consist of an overall examination of the subject matter of the course and will be held on the date set by the Faculty. Re-evaluation is not a means of improving the grade. The maximum grade that can be obtained in the re-evaluation is 5.0 (Pass).

At the time of completion/delivery of each assessment activity, the teacher will inform (Moodle, SIA) of the procedure and date of revision of the grades.

The student will be classified as Non-evaluable when he has not delivered more than 30% of the evaluation activities.

In the written activities, spelling, syntactic or lexical errors are taken into account. The penalty can be between 0.1-0.2 points on the final grade for each mistake made. Repeated errors can discount.

In the event of a student committing any irregularity that may lead to a significant variation in the grade awarded to an assessment activity, the student will be given a zero for this activity, regardless of any disciplinary process that may take place. In the event of several irregularities in assessment activities of the same subject, the student will be given a zero as the final grade for this subject.

In the event that tests or exams cannot be taken onsite, they will be adapted to an online format made available through the UAB's virtual tools (original weighting will be maintained). Homework, activities and class participation will be carried out through forums, wikis and/or discussion on Teams, etc. Lecturers will ensure that students are able to access these virtual tools, or will offer them feasible alternatives.

The single assesment will consist:

1. Synthesis exam: 70%.
2. Two book reviews (choose from tree): 15% + 15%.

-The same assessment method as continuous assement will be used.

-This subject allows the use of AI technologies as an integral part of the submitted work, provided that the final result reflects a significant contribution from the student in terms of analysis and personal reflection. The student must clearly (i) identify which parts have been generated using AI technology; (ii) specify the tools used; and (iii) include a critical reflection on how these have influenced the process and final outcome of the activity. Lack of transparency regarding the use of AI in the assessed activity will be considered academic dishonesty; the corresponding grade may be lowered, or the work may even be awarded a zero. In cases of greater infringement, more serious action may be taken.
