Prerequisites

By obtaining the minimum of credits in basic training subjects, students have demonstrated to have acquired the basic competences and they will be able to express themselves orally and in writing.

For this reason, any spelling and expression errors that may be committed will lead to a score decrease in the final grade.

Activities, practical sessions and papers submitted in the course must be original and under no circumstances will the total or partial plagiarism of third-party materials published on any medium be admitted. Any submission of non-original material without properly indicating its origin will automatically result in a failure rating (0).

It is also expected that students know the general rules of submission of an academic work. However, students could apply the specific rules that the teacher of the subject may indicate to them, if they deem it necessary.

Objectives and Contextualisation

The specific and formative objectives of the subject are:

- Knowing and interpreting the 17th century authors and literary texts.
- Applying the knowledge acquired from the literary production environment (textual transmission, scenographic resources, audience, oral culture, living circumstances of the authors, historical and political circumstances, etc.) to the analysis of literary texts and to a specific text.
- Commenting fragments of texts or texts of the main literary genres and subgenres of the seventeenth century in Spain.
- Identifying the presence of classical or foreign poetic traditions in Spanish literary texts.
- Identifying the presence of previous Spanish literary traditions in seventeenth century Spanish literary texts.
- Identifying the presence of seventeenth century literary texts in later texts of Spanish or foreign literature.
- Analyzing and identifying the presence of aesthetic criteria in the historical evaluation of seventeenth century Spanish literature.

Activities and Methodology

Title	Hours	ECTS	Learning Outcomes
Type: Directed			
Master classes and practical sessions	60	2.4	1, 2, 3, 4
Type: Supervised			
Tutoring	12	0.48	1, 2, 3, 4
Type: Autonomous			
Study personally and prepare teams and comment on analytics	75	3	1, 2, 3, 4

The learning time of this subject by the students is approximately distributed as follows:

- Directed activities (35%). These activities are divided into master classes and seminars and classroom practices led by the faculty, in which theoretical explanation is combined with discussion of all types of texts.
- Supervised activities (10%). These tutorials are programmed by the teacher, dedicated to correcting and commenting on problems at different levels of literary analysis.
- Autonomous activities (45%). These activities include both time devoted to individual study and production of reviews, papers and analytical comments written, as well as oral presentations.
- Evaluation activities (10%). The evaluation of the subject will be carried out through written tests.

Annotation: Within the schedule set by the centre or degree programme, 15 minutes of one class will be reserved for students to evaluate their lecturers and their courses or modules through questionnaires.

Assessment

Continuous Assessment Activities

Title	Weighting	Hours	ECTS	Learning Outcomes
Theoretical-practical exam	40%	1	0.04	1, 2, 3, 4
Written activity on required readings 1	30%	1	0.04	1, 2, 3, 4
Written activity on required readings 2	30 %	1	0.04	1, 2, 3, 4

Continuous assessment

The final grade for the subject will be obtained through the following partial grades (their value in the final grade is indicated in parentheses):

- 1) Written activity on compulsory readings 1 (30%): The activity will be carried out in class.
- 2) Written activity on compulsory readings 2 (30%): The activity will be carried out in class.
- 3) Theoretical-practical exam (40): Test on the course syllabus.

In the event that the student carries out any irregularity that may lead to a significant variation in the grade of an assessment act, this assessment act will be graded with 0, regardless of the disciplinary process that may be instructed. In the event that several irregularities occur in the assessment acts of the same subject, the final grade for this subject will be 0. Those assessment acts in which there have been irregularities (copying, unauthorized use of AI, etc.) are not recoverable.

In this subject, the use of Artificial Intelligence (AI) technologies is not allowed in any of its phases. Any work that includes fragments generated with AI will be considered a lack of academic honesty and will result in the activity being evaluated with a 0 and not being recoverable, or major sanctions in serious cases.

At the time of carrying out each assessment activity, the teacher will inform the students of the procedure and date of review of the grades.

The review of the tests will be carried out in an interview previously agreed with the teacher.

To pass the subject, it is necessary to obtain, at least, a 5 in the weighted average of the assessment activities. Students who do not achieve this grade and who have previously been assessed for at least two-thirds of the subject may participate in the retake, provided that they have obtained a minimum average grade of 3.5. The grade obtained in the retake will replace the grade initially obtained for the final calculation of the weighted average.

The student will receive the grade of non-assessable when they have not completed more than 30% of the assessment activities.

Single assessment

Students who have opted for this assessment method must submit and carry out the following assessment activities on the day determined in the assessment calendar that will be made public during the first week of the course.

- 1) Written activity on compulsory readings 1 (30%).
- 2) Written activity on compulsory readings 2 (30%).
- 3) Theoretical-practical exam (40).

The student may retake the course if they have completed all three activities and have an overall grade equal to or greater than 3.5. The result of the retake test will replace the grade of the failed test to calculate the final grade for the subject.

Erasmus students who request to advance an exam must present the teacher with a written document from their home university justifying their request.
