Prerequisites

Having obtained the basic knowledge that is given during the first two years of the degree of Speech Therapy and which provide a solid basis for the student to be able to start their applied-professional type training, which will be done in the language rehabilitation center and of the communication that has been assigned to him.

Objectives and Contextualisation

Since the training is carried out in a center of internships at the University in which the student is in contact with p

- that the student knows the conditions under which the work of speech therapy is carried out
- that the student knows the techniques of evaluation and of logopedic treatment
- Let the student know and find out the needs presented by the families and the communication that has been assigned to him.

Learning Outcomes

1. CM32 (Competence) Assess the response to speech therapy intervention.
2. CM33 (Competence) Prepare and correctly write reports for examination and diagnosis, follow-up, completion and referral.

3. CM34 (Competence) Establish a relationship with people without prejudice, respecting individual rights, freedom of opinion, values, and considering the sociocultural and psychological diversity of each individual.

Content

The contents and attention language depend on the type of patients treated and on the characteristics of each ce

through his observation aimed at:

- Practical knowledge of the speech therapy evaluation
- The strategic planning of the speech therapy intervention
- Practical training for individual, group and cooperative work
- Knowledge of the professional performance and the environments in which the practice is developed
- Personal resources for intervention: social and communicative skills, professional skills, assessment of profess
- The use of information and communication technologies.
- Search for documentation and specific information.

Activities and Methodology

Title	Hours	ECTS	Learning Outcomes
Type: Supervised			
Assistance (if applicable) to tutorials and / or meetings	5	0.2	CM32, CM34, CM32
Training at the internship center	120	4.8	CM32, CM33, CM34, CM32
Type: Autonomous			
Preparation of the final report	25	1	CM32, CM33, CM34, CM32

The teaching methodology takes into account the activities carried out by the tutor of the practicum, the academic tutor and the student.

Regarding the tutor of the practicum the programmed activities are the following:

- plan the training activities of the students in the center of practices
- guide and follow the student's work
- Evaluate the work of the student by means of a report written at the end of the practicum
- oversee the memory that the student of practices has to present at the end of the practicum

Regarding the academic tutor, the programmed activities are the following:

- Inform about the different centers of the Practicum (typology of patients)
- information of the corresponding evaluation procedure
- Conduct a final evaluation that integrates, the evaluation of the practice

Regarding the student the programmed activities are the following:

- A) Attendance at the center of the Practicum, in which the student must carry out the following activities:
The student can perform, among others, the following activities (depending on the center):
 - observation of evaluation and intervention sessions
 - case tracking
 - direct participation in the sessions
 - participation in work sessions
 - information to the center's tutor of the evaluation activities that must be carried out
- B) activities at the UAB
 - assistance (if applicable) to tutorials
 - preparation of the final report

In this subject, the use of Artificial Intelligence (AI) technologies is not allowed in any of its phases. Any work that

Annotation: Within the schedule set by the centre or degree programme, 15 minutes of one class will be reserved for students to evaluate their lecturers and their courses or modules through questionnaires.

Assessment

Continuous Assessment Activities

Title	Weighting	Hours	ECTS	Learning Outcomes
EV1: Report of the center's tutor	80	0	0	CM32, CM33, CM34
EV2: Final report	20	0	0	CM32, CM33, CM34

The competences of this subject will be assessed taking into account several aspects (both, EV1 and EV2, are included):

- EV1: The use report of the center's internship tutor based on the attitude and behavior of the student during the stay in the center.
- EV2: elaboration of the work of the stay in the center of practices in writing.

Each learning evidence for the subject will be returned as follows: EV1 - In the Moodle classroom, week 19; EV2 - In the Moodle classroom, week 20.

Not evaluable: the student who has not completed the number of hours of attendance at the center (75hs) Recovery week.
