Teaching groups languages

You can view this information at the end of this document.

Prerequisites

To have basic knowledge of the phonetics, phonology and morphology of the

Catalan language, and a certain mastery of the phonetic transcription technique.

Objectives and Contextualisation

The objectives of the course are the following:

(i) that the student can identify and analyze the acoustic and articulatory properties of the sounds of Catalan, in spectrograms and palatograms, respectively;

(ii) that he/she can transcribe phonetically fragments of different dialectal varieties;

(iii) that he/she can discern which phonetic properties are best suited for a formal oral text and may master them at the practical level.

Competences

- Act with ethical responsibility and respect for fundamental rights, diversity and democratic values.
- Analyse the phonetic, phonological, morphological, syntactic, lexical and semantic properties of the Catalan language, its evolution over time and its present structure.
- Assess gender inequalities when acting in this field of knowledge.
- Critically read and interpret texts.
- Demonstrate a mastery of the rules of the Catalan language, its linguistic bases and all its application in the academic and professional fields.
- Display teamwork skills.
- Innovate in the methods and processes of this area of knowledge in response to the needs and wishes of society.
- Interpret the political, social and cultural factors that affect the use of the Catalan language and its evolution over time and at the present day.

- Produce written work and oral presentations that are effective and framed in the appropriate register.
- Students must be capable of collecting and interpreting relevant data (usually within their area of study) in order to make statements that reflect social, scientific or ethical relevant issues.
- Students must be capable of communicating information, ideas, problems and solutions to both specialised and non-specialised audiences.
- Students must develop the necessary learning skills to undertake further training with a high degree of autonomy.
- Students must have and understand knowledge of an area of study built on the basis of general secondary education, and while it relies on some advanced textbooks it also includes some aspects coming from the forefront of its field of study.

Learning Outcomes

1. Analyse linguistic structures.
2. Analyse the most problematic phonetic, phonological, morphological, syntactic, lexical and semantic properties of the present-day language.
3. Analyse the principles of lexical semantics that affect the internal structure of words and their syntactic combination.
4. Analyse the syntactic structures of simple, complex, modalised and discursively marked clauses.
5. Apply the principles of correctness required in the standard language and the different registers and variants.
6. Correctly identify linguistic units.
7. Describe the articulatory characteristics of the sounds of Catalan.
8. Describe the combinatory processes for creating linguistic units.
9. Describe the historical evolution of the use of the Catalan language.
10. Determine register types on the basis of phonology, morphology, syntax and semantics.
11. Distinguish between grammatical gender and natural gender.
12. Express oneself with orthophonic correctness in standard Catalan.
13. Gain a greater capacity for reading, interpreting and critically analysing literary and linguistic texts.
14. Identify and describe the processes of inflection, derivation, composition and lexicalisation.
15. Identify causes of variation deriving from register.
16. Identify principal and secondary ideas and express them using correct language.
17. Identify the contexts in which historical processes are immersed.
18. Identify the linguistic differences between the various dialectal variants of the language.
19. Identify the origin of errors made by non-native speakers when using the language.
20. Identify the pragmatic factors that condition the use of the various linguistic structures .
21. Interpret texts in depth and provide standpoints from which to analyse them critically.
22. Interpret the problem areas and factors that have conditioned the use of the Catalan language throughout history in a multicultural society.
23. Make appropriate use of the knowledge acquired in order to collect data and handle documentary sources in the study of Catalan language and literature.
24. Match the known internal and external properties of the language to the different conditions of use.
25. Plan, organise and carry out work in a team.
26. Produce normatively correct written and oral texts.
27. Produce written work and oral presentations that are effective and framed in the appropriate register.
28. Respect the opinions, values, behaviour and customs of others.
29. Single out the grammatical and pragmatic factors that determine the overall interpretation of the clause.
30. Situate oral and written Catalan texts in time and space.
31. Troubleshoot errors made by non-native speakers when using the language.
32. Use technological resources (digital and audiovisual) to acquire knowledge and apply it in language and literature.
33. Work self-sufficiently on the synchronic and diachronic study of Catalan language and literature.
34. Write text commentaries from a critical standpoint.

Content

1. Introduction. Articulatory and acoustic phonetics. Broad and narrow phonetic transcription.

2. Articulatory and acoustic properties of the sounds of Catalan. Vowels, consonants, sound sequences. Implementation of phonetic and phonological processes. Dialectal differences in the realization of sounds.

3. Prosodic features. Segmental duration, stress and intonation.

4. Ortophony and oral standard. Relationship between aspects of Catalan phonetics and the setting of the oral standard.

Activities and Methodology

Title	Hours	ECTS	Learning Outcomes
Type: Directed			
Activities through Moodle	63.5	2.54	24, 1, 2, 23, 5, 8, 7, 18, 10, 11, 29, 12, 27, 6, 20, 15, 16, 19, 22, 21, 28, 25, 13, 26, 34, 30, 31, 33, 32
Exposition of topics and practice in class	74	2.96	24, 3, 1, 4, 2, 23, 5, 8, 7, 18, 9, 10, 11, 29, 12, 27, 6, 17, 20, 14, 15, 16, 19, 22, 21, 28, 25, 13, 26, 34, 30, 31, 33, 32
Type: Supervised			
Advice on essays and exercises	9	0.36	24, 1, 2, 23, 5, 8, 7, 18, 9, 10, 11, 29, 12, 27, 6, 17, 20, 15, 16, 19, 21, 28, 25, 13, 26, 34, 30, 31, 33, 32

The explanation of the course materials will be complemented with exercises dealing with the acoustic analysis of sounds and sound sequences with the use of the Praat program, and with the interpretation of palatograms. There will also be exercices of phonetic transcription of different dialectal varieties and class presentations, in which the student will have to put into practice the knowledge acquired about the phonetic characteristics of formal elocution.

All relevant information related to the course will be notified in class and through Moodle.

Annotation: Within the schedule set by the centre or degree programme, 15 minutes of one class will be reserved for students to evaluate their lecturers and their courses or modules through questionnaires.

Assessment

Continous Assessment Activities

Title	Weighting	Hours	ECTS	Learning Outcomes
Final oral test	25%	0.5	0.02	5, 12, 27, 19, 26, 31
Final written test	20%	1	0.04	2, 23, 5, 7, 10, 33
Oral and written exercises	15%	1	0.04	24, 2, 23, 5, 7, 11, 12, 27, 19, 28, 26, 30, 31, 33, 32

Partial written and oral test	20%	1	0.04	2, 23, 7, 12, 27, 19, 28, 26, 31, 33
Written essay	20%	0	0	24, 3, 1, 4, 2, 23, 5, 8, 7, 18, 9, 10, 11, 29, 12, 27, 6, 17, 20, 14, 15, 16, 19, 22, 21, 28, 25, 13, 26, 34, 30, 31, 33, 32

The assessment of the subject will be done in the following way:

(1) Written essay: 20%

(2) Oral and written exercises: 15%

(3) Partial written and oral exam: 20%.

(4) Final written exam: 20%.

(5) Final oral exam: 25%

Single assessment

(a) Written exam: 40%

(b) Oral exam: 40%

(c) Essay: 20%

Continuous assessement and single assessment will have the same recovery system.

The subject will considered 'non assessable' when less than 30% of the assessment activities have been carried out.

The student will be able to access the recovery exam when he/she gets a grade between 3.5 and 4.9. To participate in the recovery the student must have been previously evaluated in a set of activities whose weight is equivalent to a minimum of two thirds of the total qualification of the subject. In order to pass the course it will be necessary to obtain a minimum grade of 5. The maximum grade of recovery exam is 5.. Activities (2) and (3) are excluded from recovery.

The dates of assessment activities, as well as revisions, will be announced in advance in class and through Moodle.

In the event of a student committing any irregularity that may lead to a significant variation in the grade awarded to an assessment activity, the student will be given a zero for this activity, regardless of any disciplinary process that may take place. In the event of several irregularities in assessment activities of the same subject, the student will be given a zero as the final grade for this subject. Restrictions on the use of AI technologies will be notified when relevant.

In the event that tests or exams cannot be taken onsite, they will be adapted to an online format made available through the UAB's virtual tools (original weighting will be maintained). Homework, activities and class participation will be carried out through forums, wikis and/or discussion on Teams, etc. Lecturers will ensure that students are able to access these virtual tools, or will offer them feasible alternatives.
