## Prerequisites

There are no prerequisites

## Objectives and Contextualisation

1. Introduce students to the concepts of Business and Event Tourism.
2. Familiarize the students with the public and private entities that drive business and events tourism.
3. Learn to define the phases of a project for the execution of an event: main components and development areas
4. Learn to use technologies applied to the scheduling and distribution of tasks of an event: MS Project.
5. Incorporate the tools for the development of a research project following university methodology and rigor.
6. Analyze and formulate sustainability strategies applied to events.

## Competences

- Adapt to new situations, showing initiative in developing innovative and competitive strategies.
- Communicate and justify conclusions clearly and unambiguously to both specialist and non-specialist audiences.
- Continue the learning process, to a large extent autonomously.
- Identify the actors and the fundamental concepts of event tourism in order to analyse current data on the sector and be able to detect new trends.
- Integrate knowledge and use it to make judgements in complex situations, with incomplete information, while keeping in mind social and ethical responsibilities.
- Plan and manage the different types of activities necessary in organising an event: design, commercialisation, production and evaluation.
- Plan and organise venues and management interventions on the basis of critical analysis and synthesis.
- Use acquired knowledge as a basis for originality in the application of ideas, often in a research context.

## Learning Outcomes

1. Adapt to new situations, showing initiative in developing innovative and competitive strategies.
2. Analyse experiences of different types of events in which event management techniques were applied.
3. Apply the different instruments available for managing an event.
4. Communicate and justify conclusions clearly and unambiguously to both specialist and non-specialist audiences.
5. Continue the learning process, to a large extent autonomously.
6. Gain an understanding of the processes of creation and how to incentivise creativity.
7. Get an overview of the main actors in event tourism.
8. Identify historical and present-day trends in event tourism by analysing all the literature and statistical data available.
9. Integrate knowledge and use it to make judgements in complex situations, with incomplete information, while keeping in mind social and ethical responsibilities.
10. Plan and organise venues and management interventions on the basis of critical analysis and synthesis.
11. Use acquired knowledge as a basis for originality in the application of ideas, often in a research context.
12. Use the tools for managing suppliers, defining action protocols and contract types.
