Objectives

The Internship aims to:

- Give the student the opportunity to transfer both theoretical knowledge and practical content studied and to enter the professional world at the end of the program with a minimum of experience.
- Allow entities to collaborate in the training of future professionals, contribute to realistically introduce the knowledge that the development of tasks requires in the training of students.
- Perform training actions developed by a student within any public or private, national or international entity related to the sports world, with the objective of applying and complementing the acquired training,
- Bring the student closer to the business reality in which he will practice as a professional
- Help the student to develop skills that favor their incorporation into the labor market.
- If the internships are carried out outside the Spanish state, the student must take out a practical and civil liability insurance that covers the entire internship stay. Said insurance must be sent to the internship department two weeks before the internship start date for its corresponding validation.

Likewise, all internship agreements must contain an official digital signature of both the student and the collaborating company.

Learning outcomes

- CA13 (Apply academic knowledge acquired during the master's degree to specific real-world challenges in a company or organisation in the sports sector.) Apply academic knowledge acquired during the master's degree to specific real-world challenges in a company or organisation in the sports sector.

Apply a work methodology that is appropriate to the professional circumstances in question.
- SA32 (Propose improvements for sports management processes, including those related to aspects of finance and marketing.) Propose improvements for sports management processes, including those related to aspects of finance and marketing.

Contents

The internship aims to give the student the opportunity to transfer both theoretical knowledge and practical content studied and to enter the professional world at the end of the program with a minimum of experience. Likewise, the internship program allows the entity to collaborate in the training of future professionals, contributing to realistically introduce the knowledge that the development of tasks requires in the training of students.

Learning activities and methodology

Title	Hours	ECTS	Learning outcomes
Academic discussion sessions	5	0.2	CA13, CA14
Work placement reports	10	0.4	CA13, CA14, KA20, SA30, SA31, SA32
Work placement	130	5.2	CA13, CA14, KA20, SA30, SA31, SA32

In the case of the online modality, the methodology will be adjusted in order students can achieve all the learning outcomes specified in this guide and at the same time develop the skills and abilities of the subject.

To this end, the resources available in the Moodle classrooms will be optimized to maximize student involvement and motivation (forums, debates, simulation games, case studies, online presentations, etc ...)

Annotation: within the schedule set by the centre or degree programme, 15 minutes of one class will be reserved for students to evaluate their lecturers and their courses or modules through questionnaires.

Assessment

Continuous assessment activities

Title	Weight	Hours	ECTS	Learning outcomes
Final report	25%	0	0	CA13, CA14, KA20, SA30, SA31, SA32
Training complements	40%	5	0.2	CA13, CA14, KA20
Supervisor's report	35%	0	0	CA13, CA14, KA20, SA30, SA31, SA32

Specificities on the evaluation/assessment will be based on the internships guideline of the current academic year.
