

Sumari

B. Aupetit, A. Maouche , Trace and determinant in Jordan-Banach algebras	3–16
S. del Baño , On the Hodge theory of the symmetric powers of a curve	17–25
N. Privault , Distribution-valued iterated gradient and chaotic decompositions of Poisson jump times functionals	27–48
N. Viêt Anh , Fatou and Korányi-Vági type theorems on the minimal ball	49–75
D. Márquez-Carreras, M. Mellouk , Density estimates on a parabolic SPDE	77–96
C. A. Jensen , Stable rational cohomology of automorphism groups of free groups and the integral cohomology of moduli spaces of graphs ..	97–118
A. L. Bernardis, F. J. Martín-Reyes , Two weighted inequalities for convolution maximal operators	119–138
M. Guedda , A note on nonexistence of radial solutions to semilinear elliptic inequations	139–151
A. Iosevich, E. Sawyer, A. Seeger , Two problems associated with convex finite type domains	153–177
A. Baklouti, A. Ghorbel, H. Hamrouni , Sur les représentations mixtes des groupes de Lie résolubles exponentiels	179–199
A. Lannuzel , Sur le rang d’une extension pro- p -libre d’un corps de nombres	201–219
J. Fernández Bonder, J. D. Rossi , A nonlinear eigenvalue problem with indefinite weights related to the Sobolev trace embedding	221–235
C.-T. Wu, M. Yor , Linear transformations of two independent Brownian motions and orthogonal decompositions of Brownian filtrations	237–256
