Element 1. Processes

What are E2U audio subtitles?

Elisa Perego

Università degli Studi di Trieste

Overview

Audio subtitles (AST).

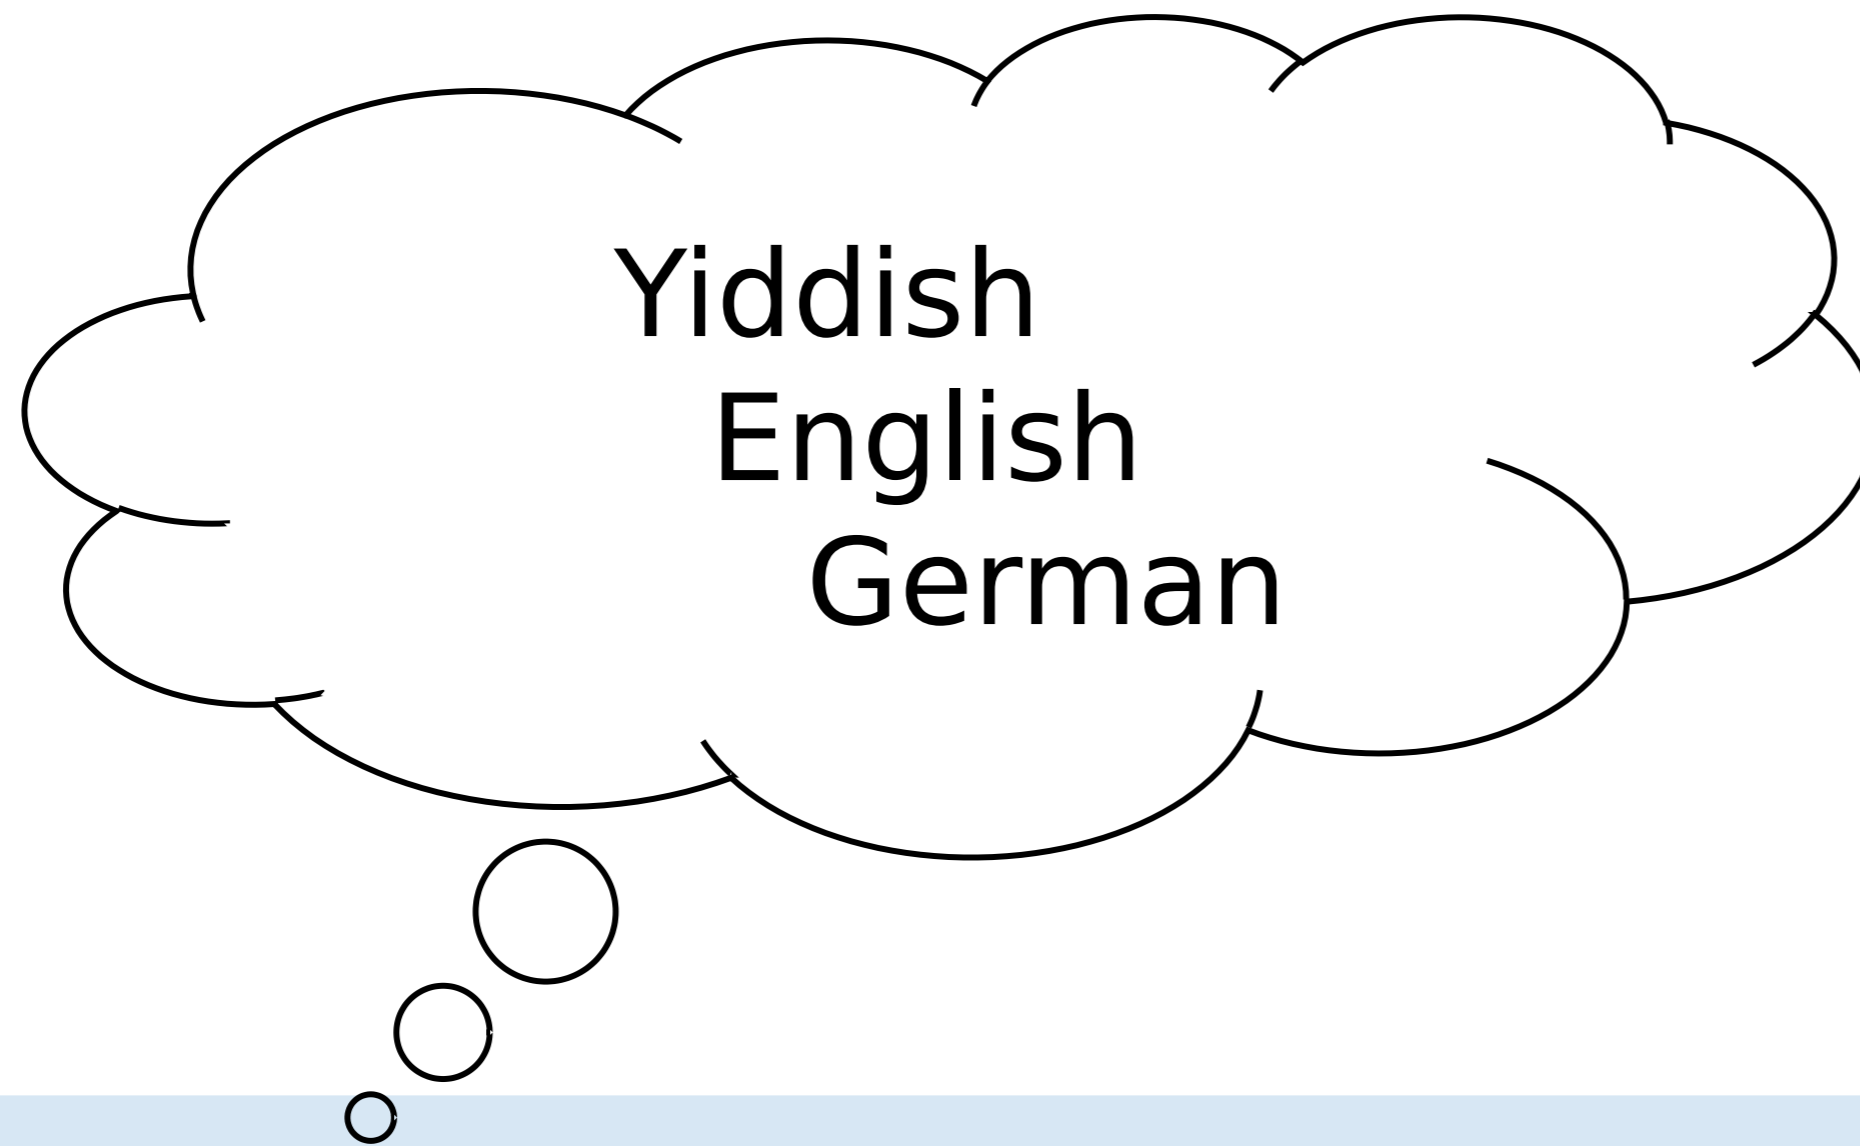

Hints on how to simplify them.

Example

Netflix.

“Unorthodox” (M. Schrader, 2020).

Code switching

Code switching

> English subtitles

What about...

... a person with sight loss,

or with dyslexia,

a slow reader,

a person who is very far away from the screen,

or anyone doing something in another room?

Solution

Reading subtitles aloud.

Audio subtitles

As short and focused as subtitles.

Not Easy to Understand (E2U).

Enhancing comprehensibility

Introducing the presence of audio subtitles

- to offer background
- to prevent confusion.

Enhancing comprehensibility

This film includes audio subtitles.

Audio subtitles are subtitles read aloud.

The importance of voices

Multiple, acted voices.

- To enjoy.
- To understand.
- To remember.

The importance of voices

Human voice = ❤️

Enhancing comprehensibility

Adapting subtitle formulation.

> **SDH** strategies + **E2U** principles.

Subtitling
for the deaf and
hard of hearing

Easy to understand

«I, Tonya»

I am so sorry,
but there is no smoking on the ice.

The teacher kindly asks LaVona
not to smoke on the ice rink.

«I, Tonya»

I am so sorry,

but there is no smoking **on the ice.**

not to smoke **[on the ice rink] > ice-skating spot.**

«I, Tonya»

I am so sorry,
but there is no smoking on the ice.

The teacher **kindly** asks LaVona
not to smoke on the ice-skating spot.

“Struggling readers”

1. Poor lexical and structural knowledge.
2. High-frequency words.
3. Normalise idiomatic formulations.
4. Short declarative sentences.

«I, Tonya»

I am so sorry,
but there is no smoking on the ice.

Teacher: It is forbidden to smoke here.

Making up for reduction

1. Use appropriate intonation.
2. Avoid flat style.
3. Exploit prosodic possibilities of human voice.

Enhancing comprehensibility

Technically:

- Managing volume of audio subtitles separately.

To conclude

1. Would automatic audio subtitling work in an Easy-to-Understand context?
2. Can we really consider synthetic voices in contexts where involvement and clarity are a high priority?
