

## **Module 4: The 6 elements of the Atom Model**

During this module of program, we are going to introduce you to each of the 6 elements of the ATOM Model: explorer, analyse, ideate, prototype, realise and evaluate.

The theoretical introduction to each element is complemented with some examples and interviews.

### **Learning objectives:**

1. Understand the main characteristics of the 6 elements that make up the Atom Model.
2. Identify activities and strategies associated with each of the 6 elements.
3. Reflect on the integration of the activities of the 6 elements of the Atom Model in their teaching in higher education.
