

Module 4: Local Indicators of climate change impacts

Module presentation and Learning objectives

In Module 4 we discuss IPLC contributions to climate change research and introduce a standardized methodological protocol to assess such contributions.

Learning objectives:

1. Understand what are the Local Indicators of Climate Change Impacts -LICCI.
2. Familiarize themselves with different types of methods for data collection on LICCI.
3. Learn how to use a citizen science platform related to LICCI data collection.
