Acknowledgement is made of your letter of February 4, 1948, regarding your desire to publish a translation of a German scientific book.

The Representatives are in agreement with the proposal set forth in that letter and take opportunity in the present letter to set forth the terms of understanding on the publication of that book. The present letter can be regarded as a valid authorization for you to publish that book. The Representatives affirm that you are permitted to publish a Spanish translation of Johann von Neumann's Mathematische Grundlagen der Quantenmechanik, which book was published in Berlin in 1932 by the firm of Julius Springer as volume XXXVIII of the series "Die Grundlagen der Mathematischen Wissenschaften in Einzeldarstellungen". It is the understanding of the Representatives that the German copyright is the property of Julius Springer, and the Representatives hereby authorize you to publish the Spanish translation in your own name-

The financial conditions imposed are that the Representatives in Spain of the Allied Control Council or the German publishing house be paid 5 percent of the retail price of the edition of 2000 copies. In addition 25 copies of the work are to be delivered to the Representatives.
