Dr. Ramon Ortiz
Max Planck Institut für Physik
Bötttingerst. 4
Göttingen, Germany

Dear Ortiz:

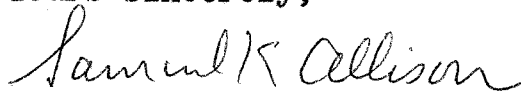

Thank you very much for your recent letter from Göttingen. Our plans are well underway for our visit to Spain in August and September. Mrs. Allison is taking our car and the children over in June and will drive with some friends down into southern France and eventually into Spain. I will leave here approximately July 19 and fly to Hamburg via London.

I am participating in a three day conference in Hamburg near the end of July. This conference does not concern physics directly, but deals with the question of academic freedom. It is possible that about this time I might make a trip to Göttingen, providing any one is there at that time in the summer. I am writing a note to Professor Heisenberg to see if the trip would be worthwhile.

If you are still in Göttingen at that time, I might see you there, but at any rate I will arrive in Santander about August 12 and I hope that you and your wife will be there.

We enjoyed very much receiving the picture of your little boy in his American cowboy equipment. Best regards to you and Mrs. Ortiz.

Yours sincerely,

Samuel K. Allison
