Dear Sir,

Public Liability Insurance
Opera House, Barcelona.

We are in receipt of your letter of the 30th. August, regarding the above, and note that the roof of the "foyer" fell down in April this year. Under the circumstances it would not be wise to attempt to obtain any rate from Underwriters until we have from you a translation of the Architect's report and confirmation that the preventive repairs which have been recommended have been duly carried out.

We have spoken to the Phoenix Assurance Company but they have very little information in London with regard to this risk. Their Spanish Agency is more or less self contained and particulars therefore will be with their Barcelona Office. Would you therefore please obtain all the information you can and send it to us when we will see the Underwriters.

Yours faithfully,
For MORICE TOZER & BECK LTD.

Director.
