En aquest document es realitza una presentació del projecte
Five Centuries of Marriages (5CofM), dirigit per la Professora Anna Cabré
i finançat per l'European Research Council, convocatòria Advanced Grant.

Centre d'Estudis Demogràfics

2011

Five centuries of marriages (5CofM). A project of
Historical Demography in the Barcelona Area.

Anna Cabré
anna.cabre@uab.es

5cofM – The project

- Advanced Grant – European Research Council.
- 2011 – 2016.
- Partners:
 - Universitat Autònoma de Barcelona (UAB).
 - Centre d'Estudis Demogràfics (CED).
 - Centre de Visió per Computador (CVC).

AIM

This project is a long-term research initiative based on the data-mining of the *Llibres d'Esposalles* conserved at the Archive of the Barcelona Cathedral. This extraordinary data source comprises 291 books of marriage licenses records, with information of approximately 610.000 unions celebrated in over 250 parishes of the Diocese between 1451 and 1905.

5CofM - Goals

- The extraction of all the substantive information on five centuries of marriages contained in the *Llibres d'Esposalles* through the construction of an exhaustive database to be named *The Barcelona Historical Marriage Database (BHMD)*.
- The development of demographic and social research based on the time-series and the geographical distribution of the marriages and the characteristics of the newly wed, such as occupation of the husband, former marital status of husband and wife, socioeconomic position signaled by the fee imposed on them, and, when possible, occupations of their fathers, survival of their parents, place of residence and geographical origin (when different from place of celebration).
- The methodological research on linkage of identities and kinship, aiming to reconstruct genealogies which can in some cases cover up to ten generations or more and constitute a privileged material for the study of life-change, intergenerational transmission and siblings differentials in occupation and social status.
- The establishment of interdisciplinary links and permanent cooperation between research in social sciences and research in computer science, having for common grounds the reading, recognition and transcription of manuscript data.

5CofM - Lines of Research

- Marriage series and the concept of net reproduction.
- Chronology and geography of population estimates.
- The data on marriage fees and occupations.
- Migratory flows.
- Survival, thus mortality.
- Linkage of identities and kinship.

5CofM - Team

Universitat Autònoma de Barcelona – Centre d'Estudis Demogràfics:

- Anna Cabré (Principal Investigator and director of the CED)
- Joana Maria Pujadas-Mora (Coordinator) .
- Ainhoa Alustiza (Postdoctoral researcher).
- Miquel Valls (PhD student).
- Albert Garcia-Soler (PhD Student).
- Joan Pau Jordà (PhD Student).
- Aina Moragues (Research Assistant).
- Kenneth Pitarch (Master Student).

Centre de Visió per Computador :

- Josep Lladós (Senior Researcher and director of the CVC).
- Alícia Fornés (Coordinator).
- David Hernández (PhD Student).
- Núria Cirera (Master Student).

THE WORK OF THE DEMOGRAPHY TEAM

Scanning - Barcelona Historical Marriage

- Professional company.
- More than 100.000 documents.
- February 2010 – June 2011.

Barcelona Historical Marriage Database – Data mining

Data mining:

- Microsoft Office Access 2003 / 2007.
- Web Application.
 - Centralization of documents and data.
 - Work online.

<http://www.cvc.uab.es/5cofm/>

Present status - Barcelona Historical Marriage Database

c. 290.000 marriages (at 1st of December):

- 55 transcribers + 3 groups of highschool students.

Target databases:

- Alphabetical lists of groom's and bride's surnames from 1451 to 1650.
- All marriage licenses for one out of every ten years from 1451 to 1905.
- All marriage licenses from 1575 to 1643.
- All marriage licenses from 1787 to 1860.
- All marriage licenses in January, from 1861 to 1905.

Harmonization (1575 – 1643): 48.921 marriage licenses.

- Names: 1685.
- Surnames: 18.824.
- Occupations: 1452.
- Geographical location (origin and residence): 773.
